Name:_____ Section:_____

8th Grade Science Survey

Directions: Please answer the following questions with complete and well thought out answers. Your answers will help make class more fulfilling and interesting.

1. Name a science topic you learned about in the past and were really interested in. What made this topic so interesting (e.g. how your teacher presented the topic or prior interest in the topic)?

2. Do you enjoy doing science experiments? Why or why not?

3. What do you hope to gain from this class?

4. How do you think this class will prepare you for high school? What do you think is one of the most important skills/qualities that you need to acquire this year to succeed in high school?

5. Do you enjoy working in groups? Why or why not?

6. What were some things you disliked about past science classes?

7. If you were the teacher, what would you do to make this class exciting?

8. What do you think of when you hear the word science?

9. What have you heard (if anything) about me and this particular class that you will be spending the next 180 school days in?
