## Group Member Selection Sheet

For this assignment you have the option of working individually or in a group. Both options have advantages and disadvantages. For example, while working in a group can potentially lessen the amount of work, an individual working alone does not have to rely on others to complete the assignment. The purpose of this paper is to specify whether you plan on working by yourself or with other classmates for the assignment listed below. It is important that careful consideration goes into this decision especially since **working with others will result in a group grade**. Therefore, it will be the collective efforts of the group that determines the grade. In other words, if you do your part of the assignment and another group member does not, your grade will be negatively impacted.

Once a decision has been made, if choosing to work in a group it is necessary to list the individuals you are working with. If you are choosing to work alone you will still need to complete the form indicating this choice. A parent signature is required on this form to indicate their acknowledgement of your choice. Should members of a group experience any issues it is recommended that we meet at a reasonable time to address the issues, well in advance of the due date. Groups will not be permitted to "split up" once this form is signed and returned since it is necessary for the members to fulfill their obligation to each other.

Assignment - \_\_\_\_\_

Check the appropriate box below and provide the names of your group members if necessary.

	I am choosing to work alone for this assignment.
	I am choosing to work with others for this assignment. (list group members below)
