Diversity of Living Things – Open Response Question 2

Images taken from: <http://regentsprep.org/Regents/core/questions/question.cfm?Course=BIOL&TopicCode=4a&QNum=4&Wrong=0>

The three visuals above (A, B, C) are representative of either sexual or asexual reproduction. Classify each as either a type of sexual or asexual reproduction.

If you designated any of the above visuals as asexual reproduction, what method/type of asexual reproduction does it represent?

What are the pros and cons of each type of reproduction?
