Personal Q & A - The Universe

Since we have been discussing the universe you may have experienced many unknowns or questions. Once we finish this topic there will likely be even more uncertainties. We all have many questions and unfortunately it would not be possible for me to answer each one in the limited timeframe we have (not to mention there may not even be answers period). This assignment will require you to consider your own personal question about the universe and to do some research in an attempt to answer it. When answering the question, be sure to access multiple resources to confirm the accuracy of your answer. Also, understand that there may not be an answer to your question, but there may be ideas that try to answer it - these are acceptable too.

Question

Answer

Use the back of this paper if necessary
