Mitosis Activity

Directions: For this activity you must organize the 20 laminated sheets into five groups of four. Each group should have a definition describing a phase and three pictures that visually represent the phase. Once you have the sheets correctly organized into groups, you should decide on the order in which these phases occur. Finally, you should complete the following tables, in the correct order with the name, definition, and sketch of the phase.

Phase - _____

Definition	Sketch

Phase of Mitosis (1st) - _____

Definition	Sketch

Phase of Mitosis (2nd) - _____

Definition	Sketch

Phase of Mitosis (3rd) - _____

Definition	Sketch

Phase of Mitosis (4th) - _____

Definition	Sketch
