*Self Assessment - Matter*

Directions: Consider each of the following objectives and use the rating scale below to rate yourself based on how well you think you understand or can explain the objective.

Objective	Pre-Lesson Rating	Post-Lesson Rating
1. Identify what constitutes matter		
2. Describe the five states of matter and how they differ at the molecular level		
3. Describe how energy (heat) affects the particles that make up matter		
4. Name and describe the processes that occur as matter undergoes phase changes (freezing, melting, evaporation/vaporization, sublimation, condensation, disposition)		
5. Differentiate between the physical and chemical properties of matter		
6. Identify examples of physical and chemical changes
