Section: _____

Changes in State/Phase

Part 1 - States/Phases

Directions: Look at the visuals below and label the state/phase (solid, liquid, gas) being represented.

Part 2 - Changes in State/Phase

Directions: Look at the before and after visuals below. Determine if energy was added (+) or taken away (-) from the system and identify the name of the process from the word bank below.

Process		
<i>condensation</i>	<i>melting</i>	<i>vaporization</i>
<i>deposition</i>	<i>sublimation</i>	<i>freezing</i>

Before	Energy (+ or -)	After	Process
